# BADMAN SHEPARD
TRAVEL AWARD

An initiative set to fund students for their dream holiday that encompasses educational value. Named after a former headmaster and a former chairman of governers (respectively), this excellent project provides Hamptonians the opportunity to gain new skills that they might have never been able to do before. The development of these skills can help to improve personal development and even make you more employable.

YOU CAN BE FUNDED UP TO **£300** **OFF TO HELP FUND YOUR TRIP!**

There are 195 countries out there for you to explore, so have a look at those that interest you - focusing on the language, culture and accessibility!

The only thing that is preventing you from not being part of this amazing journey is not applying. So spend some time - even if it's only 20 minutes - having a look at the wonderful opportunities out there and send in an application!

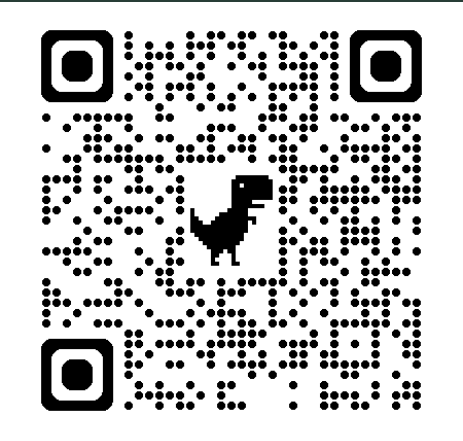

THE PROJECT

As part of the award, you will have to complete a project highlighting what you have learnt during the trip and you can express it in any way; for instance, I have made my project into a website (see the QR code below)

HAVE FUN!

Take pictures and build memories. Don't forget, you can definitely do this project with your friends, so you can have an unforgettable time and learn a thing or two! (But be realistic and ensure trip planning is feasible)

PLEASE SCAN THE QR CODE TO SEE MY PROJECT

My project demonstrates the coding skills that I have enforced (primarily in HTML/CSS/JS and highlights the skills I have learnt, the history and culture that I have been exposed to and the various activities that I took part in. Your projects can be similar but are not restricted in any way and can be presented in any format that you find fun to make.
